PRESS RELEASE
28 Oct 2026

The number of ported numbers in the third quarter of 2026

The number of mobile telephone subscriptions ported from operator to operator exceeded 17,6 million

Suomen Numerot Numpac Oy provides services to the telecommunications operators that are required under the number porting regulation and other related legislation.

Numpac´s range of services includes, for example, Number Portability Services for mobile and fixed communications networks, Call Routing Services, International Call Filtering Services, Number Query Services for mobile telephone service providers for finding the current mobile operator and ported number Information Services for consumers.

In the third quarter of 2026, the number of ported mobile telephone numbers was 206.245. Overall, already over 17,6 million mobile telephone subscriptions have been ported from operator to operator in Finland.

The number of ported fixed network telephone numbers was 3.909 in the third quarter of 2026.

Number porting is implemented with the Master System, a database software managed by Numpac. The system contains all ported mobile and fixed communications network numbers. The Master System's data on ported numbers is used for routing calls in telecommunications networks.

Statistics of the number portability are available on www.numpac.fi.
